

Würzburger Mathematisches Kolloquium

Wintersemester 2025/2026 Humboldt-Bau, Emil-Fischer-Str. 41, 00.006

Di 28.10.2025
14:15 Prof. Dr. Oi-Lam Ng
(Chinese University of Hong Kong)

Potential for Research and Practice for Data-ing and AI Literacy in School Mathematics

Di 04.11.2025
14:15 Prof. Dr. Silvia Sabatini
(Universität zu Köln)

Numerical Coincidences of Manifolds with Symmetries and Polytopes

Di 18.11.2025
14:15 Prof. Dr. Merle Behr
(Universität Regensburg)

Interpretability from Random Forest Tree Ensembles

Di 02.12.2025
14:15 Prof. Dr. Gábor Péter Nagy
(University of Szeged, Hungary / Giovanni-Prodi-Gastprofessor in diesem Semester)

Curves, Arcs and Codes over Finite Fields

Di 27.01.2026
16:15 Prof. Dr. Paul Walton
(University of York, UK)

(Z6, Zentrales Hörsaal- u. Seminargebäude, 0.002)

Gender Equality in Academia: Why is it Taking so long?

Di 03.02.2026
14:15 Prof. Dr. Paata Ivanisvili
(University of California, Irvine, USA)

Polynomial Approximation on the Boolean Hypercube
